## Step #5: Dominant Eye

Which Eye is Your Dominant Eye? \*

Right Eye

Left Eye

**How to determine which eye is your dominate eye.**

- Extend either arm out in front of you and stick up your index finger with both eyes open.

**Note:** It's easier if you place your finger in front of a distinct object (example: clock on the wall)

- Close your right eye, if your finger in front of the clock moves, your right eye is dominate

- If nothing happens, your left eye dominant.

Having your cue under your dominant eye would be very beneficial.

Having a dominate eye does not mean which eye has the worst or best visual acuity over the other eye. Your dominant eye is the leader or 'preferred eye' that provides a slightly greater degree of input to the visual part of your brain and more accurately relays information about the location of objects.

Describe Artwork for Us to Design

Take your custom made billiard glasses one step further by having a custom engraving etched into your lens or lenses.

An etching in your billiard glasses is a great show off piece for friends and excellent way to intimate your competition by having your billiard nickname, or logo that represents you!

- Upload your design or have us design an etching artwork for you! (Max Size: 5 mm)
- Etching; we can engrave text, or artwork into a lens.

#### Prices:

**Text Only \$90.00** (per pair) (character letter limits may apply)

**Artwork \$150.00** (per pair) (pt's design)

**Artwork \$200.00** (per pair) (we design)

**Etching:** Is an extra step that cannot be rushed or changed once ordered or removed later on after purchase.

**Licensing:** We cannot accept any copyrighted artwork. However, we can make adjustments and design our own version of it to make it your own. Example: We can't use a comic book logo, but we can modify it and place your initials in it instead.

## Step #14: Transitions 8 (changeable lenses)

- lenses darken when exposed to UV light -

Any Interest in Transitions 8 ? \*

- Yes (\$140.00 Extra)
